Shaping the Future: Putech Eurasia!

Between November 26-28, 2025, in the center of Istanbul, polyurethane industry's top meeting will take place at Istanbul Expo Center. 9th International Polyurethane Industry Exhibition "Putech Eurasia" will bring together industry professionals from all corners of the world and Istanbul for 3 days.

At this big meeting, the latest innovations of polyurethane coatings and adhesives, polyurea applications and RIM Integral Polyurethane Systems will be exhibited, and eye-catching stands of leading companies will inspire visitors to discover the latest trends and future developments in the industry.

Held every two years, Putech Eurasia will once again continue to be Eurasia's only and largest gathering of its kind in the industry. The exhibition will be held simultaneously with International Composites Industry Exhibition "Eurasian Composites Show", Adhesives and Adhesion Technologies Exhibition "Adhesives&Bonding Eurasia" and Technical Foam Industry Exhibition "Foam Eurasia".

WHY EXHIBIT?

Meet face-to-face with companies directly related to your sector and have the opportunity to make new business contacts.

Showcase your product categories and solutions to get one step ahead of your competitors.

Create new commercial sales opportunities.

Take advantage of marketing activities before, during and after the exhibition to promote your company in domestic and international markets and reach more potential customers.

Increase your brand awareness in national and international markets.

Respond to order requests.

“All 4 One Industry Conference”

Putech Eurasia brings together international visitors and exhibitors, providing a platform for industry stakeholders to introduce their latest products and technologies, and enabling companies to step into new international markets.

In addition, the “All 4 One - Industry Conference” program will host many presentations of critical importance for the industry, with speakers from Turkey and abroad discussing and debating important developments in the industry.

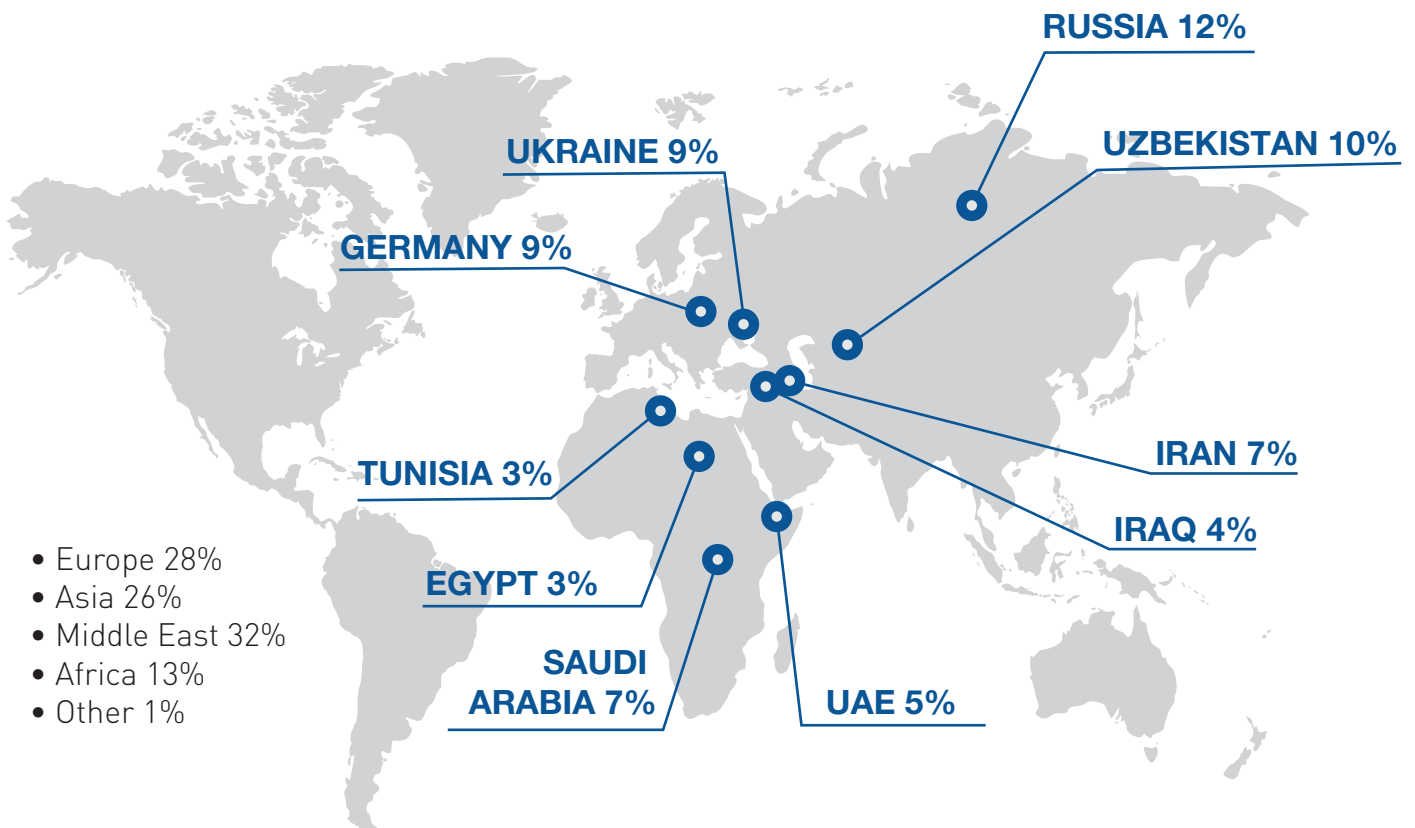

“We attach great importance to Putech fair because of its international identity. We are together with our suppliers, domestic and foreign customers and our competitors here. The fair offers us an environment where we share both the problems and developments of the sector together. It is crowded too, and we are happy about that.”

— Cavidan Karaca / Kimpur Kimteks Poliüretan

“We have been attending this fair since our first participation. This year we are having a really busy and productive fair. We are pleased with the positive feedback we have received and we are very happy to host our foreign guests. We are planning to participate in the fair again in the future, and we are planning to establish new collaborations. We look forward to introducing these new collaborations to all our partners and guests at Putech Eurasia 2025.”

— Ayla Akdere / Teknik Kimya
